Description

Beneteau Oceanis 40 'LEMONADE' exclusively for sale with DBY Boat Sales.

2011 Beneteau Oceanis 40 – "Lemonade"

Location: Aegina Island, Greece
Configuration: Two-Cabin Owner's Version
Registration: Australian Registered
Condition: Turnkey & Fully Upgraded

Offered at $195,000 AUD, "Lemonade" is an exceptionally well-maintained offshore cruiser, fully optimized for long-range independence and comfortable blue-water liveaboard sailing. Unlike standard charter layouts, this premium two-cabin owner's configuration maximizes
volume where it matters most, delivering a remarkably spacious saloon, an expansive galley, and a proper aft master stateroom. She is an authentic, turnkey vessel, meticulously prepared for her next long-distance passage.

Accommodation & Comfort
Designed with long-term liveaboard comfort as the primary focus, the interior volume rivals much larger vessels, creating a welcoming and highly livable environment:
•Aft Master Suite: An exceptionally large stateroom featuring a proper rectangular double berth, abundant natural light, and deep hanging lockers— a true sanctuary on the water.
•Forward Cabin: Comfortable V-berth offering spacious double guest accommodations with dedicated storage.
•Saloon: A bright, open seating area featuring a table that lowers seamlessly with a custom insert, creating an additional double berth when hosting family or guests.
•Upholstery: Entirely updated throughout the interior and cockpit with brand-new, premium-grade foam and upholstery.
•Climate Control: An Autoterm liquid diesel system delivers efficient cabin heating and continuous hot water on demand, operating completely independent of engine runtime for quiet, cozy evenings at anchor.

Tender Package: Highfield CL290 Hypalon tender paired with a powerful 20hp Mercury EFI four-stroke outboard, easily managed by a fixed outboard mount and a dedicated lifting crane.

Off-Grid Power & Systems Autonomy
The onboard systems are engineered for complete self-reliance at anchor, removing the need for frequent marina stops or shore power dependence:
•Solar Infrastructure: ~1,060W solar array rigidly mounted on a custom stainless-steel arch and bimini frame. The system feeds directly into a next generation 300Ah lithium house battery bank, managed via Victron SmartSolar charge controllers and a Victron SmartShunt for precise capacity tracking.
•AC Power: A 2,000W pure sine-wave inverter delivers clean power directly to the vessel's 220V outlets.
•Watermaker: Schenker Zen 30 system producing approximately 30 liters per hour, configured with automatic flushing and timed operation.
•Filtration & Utility: A dedicated galley tap supplies pure drinking water via an integrated dual-stage mineral and carbon filtration network. A secondary freshwater washdown outlet is conveniently located in the anchor locker.

Propulsion & Mechanical Reliability
The mechanical systems have been maintained to strict engineering standards, ensuring absoluteconfidence under power:
•Engine:Yanmar 3JH5E 40hp marine diesel (3,860 hours) paired with a robust saildrive unit.
•Saildrive Overhaul (Early 2023): Comprehensive preventative maintenance completed, including the installation of new diaphragms, seals, and upgraded vibration mounts. Thesaildrive leg was professionally recoated, and the cone clutch serviced.
•Cooling System Overhaul (Early 2023): The engine heat exchanger was chemically cleaned, the raw-water pump completely rebuilt, and all critical cooling lines replaced.

Rigging, Navigation & Deck Hardware
Optimized for short-handed or solo handling, the deck layout balances security with structural integrity:
•Rigging:Complete standing rigging replacement executed in 2021.
•Hull Integrity: All through-hull fittings have been replaced with corrosion-proof, premium TruDesign composite seacocks.
•Mooring Equipment:Upgraded windlass equipped with an integrated chain counter, fully controllable from the helm for seamless shorthanded Mediterranean mooring. Ground tackle consists of a premium Ultra 22kg stainless steel anchor paired with approximately 90m of 10mm 316L stainless steel chain.
•Navigation & Connectivity: Upgraded Raymarine autopilot, Class B+ AIS, and NMEA data multiplexing over the vessel's integrated Wi-Fi and 4G cellular internet network.
•Hull Finish: Fresh antifouling applied and the hull professionally polished in Spring 2026. A comprehensive winter cover is included for ashore storage.

"Lemonade" is sold with an extensive inventory of specialized tools, cruising gear, and critical mechanical spares. She stands as a thoroughly found, highly capable vessel ready to continue her journey.

Available for inspection by appointment on Aegina Island, Greece.

For full inventory plus more photos and/or to arrange an inspection call +61 2 9999 3311 or email sales@dbyboatsales.com.au
