Description

Crystalis a really truly immaculate 2007 32’9” Catalina 309 exclusively for sale with DBY Boat Sales.

A two owner boat she is a credit to her fastidious owners, who are only selling her to try a smaller powerboat for a while.

She boasts a generous double v-berth forward with the bathroom and shower adjacent, as well as an even larger double berth aft in the Starboard quarter, and the option of dropping the dining table to make a large single/small double berth and there is still another potential single settee berth opposite.

There is a television and a masthead aerial with a booster.

The galley has a 2 burner gas stove and oven, a caravan style upright 12 volt fridge/freezer as well as a large insulated top loading icebox. Hot water is provided via a heat exchanger from the motor or via a 240 volt heating element when alongside on shore power.

There is a saltwater washdown system installed as well as an outdoor shower in the cockpit. All covers are in excellent order and include a full length boat cover, steering pedestal cover, inside and outside curtains/covers for the cabin side windows, hatch covers, a 2021 bimini top and spray dodger, and a boom awning. Plus immacualte cushions both in the cockpit and below. The 100-Watt solar panel was also replaced in 2021, and there is a battery charger for use when on shore power..

Standing rigging was replaced in December 2020, and she has Selden in-mast mainsail furling and a furling headsail, her immaculate 3-cylinder Yanmar 20hp diesel engine was serviced in October 2022, when she was antifouled and as well an out of the water insurance survey was undertaken which can be supplied on request and which may be usable to get insurance on her again now without the expense of another slipping and survey inspection.

Anchor winch (Muir), Raymarine Wind, Speed and Depth instruments and a Raymarine autopilot, 2 GPS chart plotter units, full in-date safety gear: lifejackets, flares, EPIRB, VHF radio, this is a complete ready to go yacht and well worth an inspection.

Features
