Description

1985 Crowther Shockwave 36 now available for sale.

In 2010 she was extensively refurbished which included new Ferrari trampolines and the addition of a bridge deck constructed out of end grain balsa core with west system epoxy keeping her strong but light.

She has a galley up in the bridge deck which includes 100L Isotherm fridge, two burner Origo cooktop with sink along with saloon seating and dining area all with 360 degree views.

The accommodation consists of two spacious V berths forward in each hull, and a double berth in the bridge deck. 2 heads located at the rear of each hull both with pressurised hot & cold water including a transom shower.

She has been regularly cruised up and down the east coast of NSW with one Hobart crossing to her credit.

With a 2010 20hp Honda 4 stroke in centre pod, new standing rig in 2012 and electric 2 speed mast winch, this has got to be the best value for money cruising catamaran currently on the market.

Features
