Description

Launched in 2004 this beautiful example of this popular build catamaran.

Vanishis fully equipped and ready for her next blue water adventure. Having just completed a tour of Tasmania she is truly turn-key.

This design has the advantage of lifting centreboards allowing her passage into the shallowest of regions. This feature also makes her very safe and low drag off-wind so her tracking is true and unaffected by a big seaway.

Her 30hp twin Yanmar diesels are well maintained with low hours.

She weighs just 10 tonnes making her very easy to handle and set up for short handing.

Rerigged just 12 months ago plus a 2021 watermaker ,2021 B&G electronics. Also, new Rocna anchor and chain 2021

Beautifully presented interior with light and airy feel with light, warm timbers.

Spacious dinette, and and living in the saloon is complimented by a nicely set up linear galley.

The cabins are very generous.

Outside the cockpit is everything you need for fun passage making in comfort with great al weather protection.

Vanishis the full package and ready for new owners to step on and sail away.

Features

| | |
|------------------------------|-------------------------|
| Designer | Peter Snell |
| Builder | Jeff Bus/ John King |
