Description

Farrier F-720 exclusively for sale with DBY Boat Sales.

Offered for sale for the very first time, this circa 1985 folding trimaran has been stored undercover in a shed since it was built and remains in remarkably original condition.

The boat is being sold as a complete package and includes a registered tandem trailer in good working order with lights, mast and boom, standing and running rigging, deck hardware, winches, three sails with battens, and a basic interior fitted with a marine toilet and sink.

Please note that no electrics, electronics or outboard motor are included. A sturdy folding outboard bracket is fitted and ready to accept an engine.

While the boat is substantially complete, it is not being marketed as "sail away". Some recommissioning and finishing work will be required before launching, making this an excellent opportunity for a practical, hands-on sailor looking for a rewarding project. Extensive original drawings, manuals and assembly instructions are included to assist with the recommissioning process.

The interior remains largely in its original, unfinished state, consisting of bare hulls without cushions, mattresses or cabin fit-out, allowing the new owner the flexibility to complete the accommodation to suit their own requirements.

The asking price has been significantly reduced to encourage a prompt sale, and all genuine offers will be considered.

The boat is available for inspection out of the water on its trailer in Mona Vale. As the vendor is unavailable, we have limited historical information, and prospective purchasers are encouraged to inspect the boat in person.

Please note: The specifications below have been sourced from publicly available information and may differ slightly from the actual vessel.

Delivery can be arranged anywhere within Australia by separate negotiation, with transport costs dependent on the destination.

The Farrier Trailer Tri 720 (or TT720) is a 23.6-foot trailerable folding trimaran designed by Ian Farrier. It features a folding beam system and fibreglass construction.

Key Specifications

- Length Overall (LOA): 23.62 ft / 7.20 m
- Beam (Outriggers out): 16.34 ft / 4.98 m
- Draft (Max/Min): 4.27 ft / 1.30 m (centerboard down) to 1.41 ft / 0.43 m (centerboard up)
