Keel/Ballast	Bulbed lead on deep bilge
Accomodation Notes	The interior is unusually airy. The settees in the saloon are 2.00 m long and further aft than usual. It gives particularly good width and volume to the interior. The mast position is out of the way right aft of the main bulkhead. Through the special layout, the galley also contributes to an unusually generous airiness in the saloon.
Galley Notes	The galley is seagoing and out of the way from the natural flow through the boat. The person in the galley does not stand in the way of anyone who wants to enter the aft cabin. There are deep double sinks and a large fridge. The work surface in the galley is already as standard in solid composite stone.
