## Description

Hanse 540e 2008 model proudly offered for sale with DBY Boat Sales.

This exceptional yacht is fully equipped for blue water cruising. Comfortable and spacious she is designed to sail shorthanded efficiently and safely with a solid array of electronics including a double autopilot and redundancy all around. Her hull design is known for being sea kindly ensuring good form stability both upwind and downwind. The design performs over and above most cruising boats and delivers solid daily averages effortlessly.

In port she is easy to handle with a powerful bow thruster to get into those tight docks.

Currently available in New Zealand she promises a sailing experience like no other. Originally she sailed from Barcelona Spain. Everything you need including extra fuel tank, furling staysail a fully enclosed cockpit all add to the comfort and control.

The four cabin layout features an owners cabin with bathroom. Downstairs she feels like a home being light and spacious with generous dining, kitchen and navigation areas.

She is designed to be offgrid for long periods. This is made possible by the extra fuel tank, watermaker, solar panels hydro and wind generator.

To enable easy shorthanding whilst sailing she has electric winches, a furling staysail as well as headsail plus an asymmetrical gennaker.

The Hanse 540e is the real deal, ready to go package to head on your dream adventure.
