Description

1994 Jutson 43 for sale exclusively with DBY Boat Sales.

A Jutson 43, launched in Adelaide in 1994. She was designed specifically for the Hobart (has done the race around 10 times) - and won in PHS in 2006, some other results were good as well. (there's plenty of press on her from those years). So, a well-known and proven offshore racing boat - whenever you're in Sydney Harbour people who remember her from back then are forever coming up asking about her.

For a brief period she was used as a sail training yacht up at Airlie Beach, so the boat was in survey for that - and that's why she has a few more comforts than a typical race boat (kitchen, 9 bunks, has some unused kit that can be used for a hot shower, TV etc). Certainly set up well enough for cruising as well as racing.

Loads of information is available to the new owner - old ratings, dimensions, sailing instructions etc.

Design and rig

To look at she resembles a Farr 40 mixed with a Sydney 38. Farr 40 sails do fit her rig - but she was designed to go offshore, so all the deck gear and winches are much bigger and heavier duty than a typical Farr 40 (2x Harken 53.3's, 2x 42's and 6x 48's). She's made of Kevlar, so very strong hull. The rig is also designed to be strong - set up is all rod rigging and running rig is all Dyneema sk75 or 78 (have gradually been upgrading).

To sail

The boat comes with sailing instructions - key points are that she's hyper-responsive, powers up instantly, needs a reef a lot earlier than most boats. You can cruise Another Fiasco easily and enjoy yourself, but to race her properly you get the best out of her with a good crew. She'll still beat almost anything other than the most specialised modern racers. The guys at Airlie used to say she's like an old Ferrari - not as fast as the fastest today, but still damn fast.

Features

Designer	Jutson
Hull Construction Material	Kevlar
Hull Type	Mono
Deck Construction Material	Kevlar foam sandwich
Country Origin	Australia
Length (feet)	43
Length (m)	12.88
Length Waterline (m)	10.86
Beam/Width (m)	3.99
Draft (m)	2.88
Draft (feet)	9.44
Number of Helms	1
Displacement	7100 kg
Number Of Engines	1
Engine Standard	Yanmar
