The Pearson 365 is a highly regarded cruising yacht designed by William Shaw and built by Pearson Yachts between 1976 and 1982. Known for her strong construction, practical layout and excellent storage, the 365 has earned a loyal following among sailors seeking a capable and comfortable offshore cruiser. Over 400 were built, a testament to the success of the design and its suitability for long-distance cruising.

With a solid fibreglass hull, fin keel and skeg-hung rudder, the Pearson 365 offers reassuring seakeeping and directional stability, making her equally suited to coastal cruising, liveaboard use, or extended passages. On Deck

The cockpit is generous and secure, providing ample room for crew while remaining practical for short-handed sailing. Wide side decks and sturdy hardware make movement forward safe and comfortable, and the sail plan delivers dependable performance without being demanding.

Many owners favour the 365 for blue-water use thanks to her moderate displacement, balanced sail area and comfortable motion at sea. Interior & Accommodation
