## Description

Santana 28 A LITTLE SERENITY exclusively for sale with DBY Boat Sales.

Santana 28 - Well Maintained | New Rigging | Ready to Sail

A LITTLE SERENITY presents as a tidy, well-cared-for example of this popular and capable cruiser-racer. Known for her solid performance and practical layout, she is equally at home enjoying relaxed coastal cruising or competitive club racing.

Lovingly maintained by her current owners, she has been actively raced with notable success on the local circuit, a testament to both her performance pedigree and the care she has received. At the same time, she remains a comfortable and functional option for weekend cruising.

The interior is clean and practical, offering everything needed for time away on the water, while the cockpit provides ample space for crew when racing or entertaining family and friends.

Mechanically, she is well equipped with a Beta 14hp diesel engine, showing low 200 hours, recently serviced and presenting in excellent, near-new condition—a significant plus for reliability and added confidence.

A standout feature is the brand new March 2025 rigging, offering peace of mind and significant value for the next owner. With her systems in good order and presentation neat throughout, she is genuinely ready to step aboard and sail away.

Whether you're looking for an affordable entry into yacht ownership, a competitive club racer, or a versatile all-rounder, this Santana 28 is well worth your inspection.

Date of Last Antifoul: February 2026

Date of last Engine Service: April 2026
