Description

Yarmouth 23ft Gaff rigged cutter that was hand built in 2001 on the Isle of Wight for her current one and only owner since new.

Hull # 17 is a sturdy little yacht that made numerous English channel crossings before being shipped to Australia in a container back in 2005. There is a thriving Owner's association for the Yarmouth 23's across the world.

A fully encapsulated lead keel with protected rudder and prop is ideal for getting into shallow waters and tight anchorages.

The gaff rig will also be able to get under many bridges which gives access to hundreds of river systems around Australia.

She is powered by a Beta 13.5hp shaft driven diesel with a perfect service history and showing 1748 hours which presents immaculately.

This is the only one known to be in Australia.

Garmin GPS and sailing instruments. A full set of sails including a topsail. A classic head turning yacht that will not disappoint.

Features

Designer	Freeman & Wyatt
Builder	Yarmouth marine (Fisher Boats)
